PROJECTS

Redext

June 2023 – Present

Next.js | TypeScript | Tailwind CSS | Prisma | MySQL

- Utilized NextAuth to signup/signin users using Google and setup a password less login system
- Implemented an infinite scrolling feature to fetch more data on user scroll
- Users can create communities, posts, comments and upvote/down vote comments and posts

BCITSA Website Maintenance

Jan 2023 – May 2023

WordPress

- Communicated with the BCIT Student Association team to improve its website security and redesign the layout of the website
- Documented the necessary procedures to deploy the development site to the main production site

Tiny Slice

April 2022 – June 2022

HTML | CSS | Python

- Web based application to track a user's spending
- Users can manually enter a budget and items to track their spending habits
- Collaborated in a group setting while following the Agile methodology
- Assigned tasks and organized meeting dates for each sprint

WORK EXPERIENCE

The Keg | Steak House & Bar

June 2022 – Aug 2023

Kitchen Cook

- Adapted to changing circumstances and high-pressure situations, displaying calm and composed demeanor
- Worked collaboratively with fellow kitchen cooks to ensure smooth operations
- Demonstrated strong time management skill by completing current tasks while assisting other cooks
